

Participation in the Coalition is open to all sectors including commercial, cultural heritage, educational, central and local government, and research. Members of the Coalition must be collective or not for profit organisations who can subscribe to the public mission, goals and principles of the Coalition but other organisations can participate in alliances and sponsorship. Membership is also open to other "membership organisations" with UK members but in this case the rights and benefits of membership only extend to the staff and officers of those organisations, and do not flow through to their own members.

For details on how to participate please go to: [Membership: Participation in the Coalition](#)
