Interest in Digital Preservation
<p>RLUK has been actively involved in digital preservation for many years, it was involved in Workshops on Digital Preservation held at the University of Warwick in 1996 and 1999 and also in two major digital preservation projects, Cedars (RLUK Exemplars in Digital Archives), 1998-2001, and CAMiLEON (Creative Archiving at Michigan and Leeds, Emulating the Old on the New), 1999-2003. Recently, RLUK has worked with the JISC to fund and oversee a major report on digitization in the UK: Digitised Content in the UK Research Library and Archives Sector, which heavily informed the “Parkinson Report” that recommended the establishment of a UK framework for digitisation : http://www.curl.ac.uk/projects/Digitisation_in_the_UK.pdf</p> <p>RLUK continues its work on digitization through its Resource Management Task Force</p>
