

**Date:** 13 October 2006

**Venue:** Wolfson Suite - Edinburgh University Library, Edinburgh

[OAIS Five-year review Recommendations for update](#)

This workshop will prepare a joint comment, on behalf of members of the Digital Curation Centre Associates Network and members of the Digital Preservation Coalition, for submission to the OAIS (Open Archival Information Systems Reference Model) 5 year review. The workshop is open to members of both organisations who are familiar with details of the standard and actively implementing or preparing to implement an OAIS.

In compliance with, the International Organization for Standardization (ISO) and the Consultative Committee for Space Data Systems (CCSDS) procedures, the Open Archival Information Systems Reference Model (OAIS): ISO 14721:2003 must be reviewed every five years and a determination made to reaffirm, modify, or withdraw the existing standard. The comment process for this review is now open with recommendations for updates that will reduce ambiguities or improve missing or weak concepts sought by 30 October 2006.

9.30 - 10.00

Registration and coffee

10.00 - 10.30

Introductions - Sheila Anderson, AHDS

Summary of OAIS: Lyn Lewis Dafis, National Library of Wales
