

The Archaeology Data Service (ADS) has a vacancy for a Digital Archivist for a fixed term of two years, commencing immediately.

The post will involve accessioning, mounting, and indexing of data collections, validation of data and conversion into preferred formats; curation and migration of digital collections; design and development of user interfaces; and discussion and data audits with data depositors.

You should have a first degree or postgraduate qualification in archaeology and/or computer science, and you should possess an exceptionally high level of ICT skills.
