JISC Digital Media

Still images, moving images and sound advice

Research & digital media (video, audio, images & cross media)

Many, very diverse research uses & users

Areas of commonality: objectives, challenges & types of support required

Much of this not unique to research users (familiar to users/managers of museum, archive, library & teaching collections?)

Much not even unique to digital sound & vision (good practice when making & using any kind of data?)

JISC Digital Media

Still images, moving images and sound advice

JISC Digital Media

National advisory service
supporting the use of digital
media in teaching & research

- Digital Video
- Digital Audio
- Digital Images
- Cross Media

JISC Digital Media

Calls for research support

JISC Digital Media
Still images, moving images and sound advice

Who's using digital media in research?

Mike
Ahmed
Sarah
Barry
Bertha
Paul

JISC Digital Media
Still images, moving images and sound advice

What where they doing with it?

JISC Digital Media
Still images, moving images and sound advice

Work-in-progress:

‘Research user’ needs analysis

Initially for JISC use, now being adapted for institutional repository managers.

Conducted via

Interviews

Surveys

Analysis of existing user stats

Has identified

Areas of commonality

Shared challenges

Types of support required

JISC Digital Media

Still images, moving images and sound advice

Supporting digital media use in research

Common Phases:

Citing digital media

Acquisition of digital media

Analysis of digital media

Publication of digital media

JISC Digital Media

Still images, moving images and sound advice

1. “Citation”

JISC Digital Media
Still images, moving images and sound advice

Citation

- Beginning & end for many researchers!
- Some challenges:
 - lack of standardised metadata (especially unique identifiers – DOI, ISBN, GUI etc)
 - online, social media platforms

JISC Digital Media

Still images, moving images and sound advice

'Standard' citation for media

Title (if part of series, list title then series name)

Year of recording

Format

Publisher/distributor (if applicable)

Channel (if applicable)

Creator (if applicable)

Place of recording / Country of origin (if applicable)

Unique Identifier (DOI, ISBN, GUI etc)

JISC Digital Media

Still images, moving images and sound advice

Dohuk Market Iraq Kurdistan Region August 2009, online video, accessed 20 June 2010, <<http://www.youtube.com/watch?v=RY1rRmNbRWI>>.

JISC Digital Media

Still images, moving images and sound advice

Cite as Online Resource?

Ahmed: “That’s OK but it will get taken down. Can I download a copy (for research purposes)?”

JISC: “Ask the Poster then YouTube. But probably not.*”

*We’re working on it!

JISC Digital Media
Still images, moving images and sound advice

2. Acquisition

Mobile phone Steadycam!

Acquisition: Digital media 'in'

Unlimited number of ways to generate new media via research:

“From CCTV footage through deep sea trawls to CGI and endoscopy.”

Many benefit from a common approach...

Sarah

JISC Digital Media
Still images, moving images and sound advice

Type of support required

- Media produced must be **fit-for-purpose**. Consider **usage & the users** (e.g. analysis/publication)
- Think about how data will **perform** and which **properties** of it are **significant**
- Make **informed decisions** on things like: setting up a workspace, resolution, compression, efficient workflows

JISC Digital Media

Still images, moving images and sound advice

Sarah's plan included:

1. Selection of recording hardware & software
2. Selection of video resolution & file format
3. Specifying a camera position
4. Specifying lighting
5. Ensuring good colour contrast
6. A consistent workflow

JISC Digital Media
Still images, moving images and sound advice

Approaches to analysis

Quantitative (typically automated)

Qualitative (typically manual)

Hybrid (semi-automated)

JISC Digital Media

Clinical Interview Techniques

Therapists have an array of techniques that they use in an interview:

1. Questioning:

C: As a kid I was ~~always~~ in trouble

T: What kind of trouble were you in?

- Most often used by clinical interviewers
- patient is asked direct questions in areas determined by interviewer
- questioning may be *open* or *closed ended*
- Direct questions usually begin with *how, what, and why*
- Closed-short answers, become "regressive"
- Open-"how does it make you feel"
- newer clinicians use direct questioning

2. Reflection:

C: I just can't seem to get anywhere in my life

T: Your lack of progress frustrates you?

- requires interviewer to *skillfully* restate the patients cognitive or emotional material
- demonstrate to the patient that their feelings are understood
- Ragerian Client-Centered Therapists rely heavily on reflection
- requires clinical skill to be effective
- overuse is counterproductive - important areas are left unaddressed

3. Restatement (Paraphrasing):

C: Thoughts are racing in my mind, I just ~~can't~~ concentrate, I'm confused

T: These strange things in your mind are disturbing to you?

- rephrase what client said in clearer or more articulate terms
- lets the patient know you are paying attention
- differs from reflection - to facilitate understanding or for clarification (reflection is type of intervention)

4. Clarification:

C: My mother is out most of the night leaving me alone. She comes home at all hours sometime she ~~doesn't~~ come home at all.

T: What is your mother doing when she is out like this?

5. usually done by using one of the other techniques (questioning, paraphrasing,

JISC Digital Media

r'

JISC Digital Media
Still images, moving images and sound advice

Type of support required

- Finding a long-term home for multimedia research data
- Self archiving & 'micro-digital preservation'
- Maximising impact through sharing
- Usage / download stats
- Open data & Creative Commons

JISC Digital Media

Still images, moving images and sound advice

Digital media in the research cycle

Common Phases:

Citing digital media

Acquisition of digital media

Analysis of digital media

Publication of digital media

JISC Digital Media

Still images, moving images and sound advice

Concluding points

- What researchers 'do' with digital media can be mapped & supported
- Good (basic?) digital preservation/data management advice hasn't yet reached the average researcher
- The 'open' publication of multimedia as research is growing in significance
- Legislation is struggling to keep up with research use of media

JISC Digital Media

Still images, moving images and sound advice
