Digital Preservation Futures with Preservica

May 13 2021
Welcome

Michael Hope
VP, Marketing

Peter Anderton
VP, Product
Our vision is a world where trusted active digital preservation is accessible to all and seamlessly integrated into the systems that manage and protect our most valuable digital information.

A world where the potential of our digital memory is harnessed to enrich and protect our cultural, social, economic and political lives.
A collaborative & diverse global community

1,200+ institutions

2,000+ digital archivists

18 Countries

Global community
A community achieving incredible things together

- Protecting the world’s digital memory
- Capturing history as it is being made
- Sharing vital information online

Pride in Suffolk’s Past

Book Now! 17 May - 4 July at The Hold
Working together on digital preservation advocacy, innovation & user community success
Information is becoming more complex
Advanced preservation & rendering of multi-part objects
Making it easy to maintain your content in the latest accessible formats

Staying ahead of which file formats are at risk and which migration tools to use is time consuming and complex.

Leverage community best practice and let the system do it for you!

Spend your time curating & enriching your archive.
Continuously automated Digital Preservation for everyone

Updated best practice

My content

Preservica
Making digital preservation “business-as-usual”

“I want to create, save and retrieve information using software I am familiar with”

“We need to protect our most valuable long-term information, ensuring it’s trustworthy and always available in accessible formats”
